

# GARY GULLER

## Inspirational Speaker & Mt. Everest Summitter: Gary Guller

Gary Guller grew up in England and the US. He has spent most of his life climbing and exploring the world, including over 30 trips to the Himalayas. He is active internationally advocating for the potential of all people, but especially those living with a disability.

Gary lost the use of his arm in a mountaineering accident just as he had discovered alpine climbing. He stunned a medical team at Duke by asking to have his paralyzed arm amputated. After serious introspection, Gary began climbing again, surmounting the barriers that stood in the way of realizing his dream to climb the world's highest mountains. He has inspired others ever since to continue onward and upward.

Gary's dream was finally realized, but only after embracing the true potential of others. Gary is an extremely sought after professional speaker, sharing his life and the lessons he has learned with only a handful of organizations each year.

There is a lot to explore in the next hour, especially how we perceive and treat others, and what can happen as a result.

*I am pleased to introduce Gary Guller...*
